### **EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Kim Turilli on April 7, 2010.

The application has been amended as follows:

#### **ABSTRACT**

The invention relates to an arrangement for lining the interior of a passenger vehicle such as an airplane including a honeycomb formation of several honeycombs arranged side by side. At its end, the honeycomb body is supported by a cover layer supported above and below the honeycomb formation such that by means of two cover layers glued onto the honeycomb formation, a layer design of the honeycomb paneling is created, which layer design is arranged so as to extend parallel to the outer skin of the aircraft and follow the curvature of the outer skin. The honeycomb formation used is made of paper [ ] or aramide honeycombs or of a mixed combination of both honeycomb types; on whose cross section of the honeycomb body a CFK cover layer is positioned to both ends of the honeycomb bodies. As an alternative, further CFK insulation layers are glued onto the outer surface of the respective cover layer supported above and below the honeycomb formation, which cover layers comprise a CFK or GFK. Moreover, the layer design of the honeycomb paneling may comprise

Art Unit: 1794

further honeycomb formations which are additionally stacked on and glued to the honeycomb formation used.

***Allowable Subject Matter***

**2. Claims 23 – 30, 33 – 35, 37 – 43 & 47 – 49 are allowed.**

The following is an examiner's statement of reasons for allowance:

The instant application claims "...a burn-through-proof foil arranged such that the burn-through-proof foil conforms to an outer surface of the bottom-supported cover layer facing the space, wherein the burn-through proof foil is the outermost layer of the interior panel facing the outer skin of the aircraft". This limitation is not obvious over the prior art. Neither Humphries et al. or Fischer et al. disclose a burn-through-proof foil as the outermost layer of an interior panel for an aircraft. Therefore, it would not have been obvious to one of ordinary skill in the art at the time of the invention for a burn-through-proof foil to be an outer layer of an interior panel, as claimed by Applicant in claim 23.

Applicant's amendment to claims 40 and 41 overcome the previous rejection anticipated by Chee et al.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should

Art Unit: 1794

preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to NICOLE T. GUGLIOTTA whose telephone number is (571)270-1552. The examiner can normally be reached on M - F 8:30 a.m. - 6 p.m.
